About

As a passionate software engineer, I'm driven to explore new technologies and make a significant impact in the IT industry. My skills in both front-end (HTML, CSS, JavaScript/ReactJS) and back-end (Python, Django/Flask, MySQL) development enable me to work on a variety of projects, and I enjoy breaking down complex problems to find innovative solutions.

Education

Bachelor of Software Engineering
Gomal University
2019 - 2023

Project

To-Do List

For Client

Jan-2023 to Feb-2023

- The app should allow users to create and organize tasks easily. Users should be able to add, edit, and delete tasks as needed.
- The app should provide reminders or notifications to keep users informed about upcoming tasks or approaching deadlines.

Ecommers-Website

Final-Year project

Feb-2023 to May-2023

- Implement personalized product recommendations based on customers' browsing and purchase history.
- Provide customers with the ability to track their orders from placement to delivery.
